Chapter 19

(Bacteria/Virus) and 40-2 The Immune System

Viruses infect all forms of organisms including bacteria, archaea, fungi, plants, and animals. Living things grow, metabolize, and

Read Book

Chapter 19

Bacteria And

Viruses reproduce. Viruses replicate, but to do so, they are entirely dependent on their host cells. They do not metabolize or grow, but are assembled in their mature form.

12.1 Viruses - Concepts of Biology - 1st Canadian Edition

1. When a virus takes over the machinery of a cell it forces the cell to manufacture more:
