Ford Cortina 1600 Gt Engine

The Cortina 1600 GT was naturally enough based on the Cortina 1600 - a very good starting point. Externally, apart from the Goodyear 165 SR 13 radial ply tires and minimalist GT badging, it was difficult to tell a GT from the lesser car. Things changed however the moment you set eyes on the instrument panel.

The Ford Cortina GT was designed as the in-house performance version of the famous Cortina by Roy Brown Jr., the designer of the Ford Edsel. As you know, Ford Edsel was an epic failure of that time, so in Britain, he was given the relatively low-priority job of making an affordable 4-door car for the European middle-class and he did it best.
