### **Honda 24 I Vtec Engine**

This 2.4-liter four-cylinder gasoline engine debuted in the 2001 Honda CRV and it was the K24A1 version. K24 engine design is similar to the 2.0-liter K20 unit has but with enlarged bores size and stroke, and some changes needed due to increased displacement. Honda used the K24 as a fresh alternative for the old F23A engine. The K24A series

Odyssey) While the Honda Civic and other K-Series powered models were making a name for themselves, Honda chose to make fuel economy the predominant trait of its J-Series V6 engine, with the i-VTEC technology being paired with an all new Variable Cylinder Management system.

### **Pure Japanese Muscle: Five Best Honda VTEC Engines of All Time**

VTEC (Variable Valve Timing & Lift Electronic Control) is a system developed by Honda to improve the volumetric efficiency of a four-stroke internal combustion engine, resulting in higher performance at high RPM, and lower fuel consumption at low RPM. The VTEC system uses two (or occasionally three) camshaft profiles and hydraulically selects between profiles.

car engine introduced in 2001. The K-series engines are equipped with DOHC valvetrains and use roller rockers to reduce friction. The engines use a coil-on-plug, distributorless ignition system with a coil for each spark plug. This system forgoes the use of a conventional distributor-based ignition timing system in favor of a ...

### **Honda K engine - Wikipedia**

The system was upgraded to i-VTEC in the early 2000s, which added intake camshaft timing adjustment. VTEC implementation differs in different engine families across the Honda and Acura range, thus the i-VTEC implemented in the current R-series Honda engines, for instance, is different than the i-VTEC system equipped on K series engines.
