[DOC] Icalendar Plus User Guide

Put your event on the map. All the information you need about an event at your fingertips. When you add the location of your event—like the name of a restaurant—Calendar fills in the address, shows you a map and the weather, and lets you know when it's time to leave. To browse the Calendar User Guide, click Table of Contents at the top of the page.

Calendar User Guide for Mac - Apple Support

You can choose to share a calendar with one or more people in iCloud. Those you invite receive an invitation to join the calendar. Tap Calendars at the bottom of the screen. Tap next to the iCloud calendar you want to share. Tap Add Person, then enter a name or email address, or tap to browse your Contacts. Tap Add.

Share iCloud calendars on iPhone - Apple Support

For example if an iCalendar is created for a specific Driver or a Billing Contact (third party): that third party could be sent the iCal URL so that they could view just the trips relative to the third party in their calendars or a single user can create multiple filtered calendars for their calendar program.

How-to-Set Up the iCalendar

First, you'll need to change the default calendar on your iOS device to your Google account. On your iPhone or iPad, open Settings > Calendar, and under Default Calendar, choose your Google account. Click iCloud > Accounts, and slide the button so that it's in the On position.

The Ultimate Guide To Google Calendar - Calendar

You can bring up the event form either by clicking on an empty space in the calendar or by clicking the plus icon in the bottom right corner. The options here are pretty clear. The title for the event will be the text that you and others with the right permission level will see in the calendar.

Making the most of Office 365 Calendar - Calendar

To assign clock alarms based on time, configure the org-icalendar-alarm-time variable. The iCalendar format standard requires globally unique identifier—or UID—for each entry. The iCalendar export back-end creates UIDs during export. To save a copy of the UID in the Org file set the variable org-icalendar-store-UID.

iCalendar Export (The Org Manual)

This document defines the iCalendar data format for representing and exchanging calendaring and scheduling information such as events, to-dos, journal entries, and free/busy information, independent of any particular calendar service or protocol. RFC 5545 supercedes the original iCalendar specification , RFC 2445. Author
