One of my Windows hacks is to try unchecking hide resolution that monitor can't display. I've tried to do that on my 18" Lenovo 1600x900 resolution and doing that, it showed selections for 1776x1000 and 1920x1080 resolutions. When I clicked those, however, things started looking a bit awkward. This hack can have side effects,

journalist – or an office worker if you wish – I always reasoned that I needed a decent computer and that I need to pay for that quality. Between 2000 and 2017, I consumed three laptops that I bought new and which cost me around 5,000 euros in total – roughly 300 euros per year over the entire period. The average useful life of my three laptops was 5.7 years.
