### Red Line Synthetic Oil. Automatic Transmission Fluids

Red Line Gear Oils and manual transmission fluids are designed to give improved gear protection at high temps. They reduce differential temps 10-70°F. Efficiency improvements between 1-5% are typical. The synthetic base stocks and additives allow the gear oils to carry higher loads compared to petroleum lubricants.

### The 10 Best Transmission Fluids to Buy 2020 - Auto Quarterly

I swapped out my manual transmission fluid for Redline MT-90. I know that the user manual for the speed 3 says that the transmission takes about 2.6 quarts of fluid, so I bought 3 quarts of the Redline. Everything went fine, but i had read online and seen online countless times that you're supposed to fill up the transmission through the fill hole until it starts to overflow. First two ...

### Amsoil Vs. Redline: A Handy Comparison Guide

At 25321 miles, I changed my (6 speed manual) transmission fluid with Redline D4 ATF on the recommendation of bmw325i.net as well as a few posts here. It made the shifts smooth as butter - loved it. After 5-10k miles, things seemed to firm up a bit. I ended up changing it again with more D4 ATF at 47k miles. Smooth once again.
