The economic impact of hosting the Olympics tends to be less positive than anticipated. Because most cities have ended up falling massively in debt after hosting the games, cities without the ...

## **The Economic Impact of Hosting the Olympics**

We conclude that the Olympic effect on trade is attributable to the signal a country sends when bidding to host the games, rather than the act of actually holding a mega-event. We develop a political economy model that formalizes this idea, and derives the conditions under which a signal like this is used by countries wishing to liberalize.
