approach, rounding out with a comprehensive design approach towards building Storyboard models that can be used to implement your Presentation Layer.

Designing JSF Applications - A Storyboard Approach

The Storyline approach encourages children to study and search for information with a real sense of purpose. They learn to discriminate and make decisions as well as going on to create. There is thus a blend between knowledge, skill, analysis and creativity in the Storyline experience and centrally the children learn that learning is within their power to do.

What is Storyline? ← Storyline Scotland

A story-based approach or storytorial is an effective tool to engage learners with the content. Who is not interested in a good story? This strategy delivers not just for the K-12 segment but also among adult learners. Advantages of a using a storytorial are:

Story-Based Learning Strategy In A Course For ...

Creating a storyboard will help you plan your animation out shot by shot. You can make changes to your storyboard before you start animating, instead of changing your mind later. You will also be able to talk about your animation and show your storyboard to other people to get feedback on your ideas.
