Thin the canopy of the tree so that the wind passes through instead of pushing against the tree. You can accomplish this by removing some of the main branches. Raise the crown by removing lower branches. Lower the crown by shortening upright branches.

Preventing Damage From Wind: Dealing With Wind Damage To ...

The reason for this being the best answer is that sway, is a verb that is describing the action of the tree branch. This action, is also being modified directly by the phrase "in the wind", which is a prepositional phrase. It is a prepositional phrase because it possesses a preposition "in", followed by a noun, which is "the wind".
